

# Technical Teamwork Presentation

---

By: Justin Homer, Jessica Payne, Ethan Chalupa, Alexander Howard

# Acorn Project 1 Overview: Blindfold Activity

Overview: To learn to effectively communicate, our project is to split into partners, blindfold one of the two, and have the other guide the blindfolded person through a path with only verbal communication.

Institution Learning Objective: Effective communicators

Values: Honesty, Integrity, communication, Responsibility, Reliability

Visions: Our vision is to use communication to get to a finish line blindfolded.

Smart Goal:

S: Achieve a destination safely with the guide directions.

M: Make it from start to finish.

A: Time is not a factor, we can complete the course with as much time needed.

R: The communication required to keep each other safe which builds the ILO.

T: We will complete this activity before week 13.

# Acorn Project 1 Milestones: Blindfold Activity

## Milestones:

1. Arrive at location
2. Setup/plan course
3. Assign pairs
4. Apply blindfolds
5. Complete course
6. Switch partners
7. Complete course
8. Celebrate good times

# Acorn Project 1 Conclusion: Blindfold Activity

Experiences: From this project, we had a lot of fun. We learned that walking blindly through an area is a true test of trust for the team. We navigated through the BYU-I Gardens with our partners and had a good laugh as we got turned in circles not knowing where to go except for listening to the voice of our partners. Also, we had a small laugh when Ethan tripped a little from misguidance.

Results: We were able to complete this project and we believe that we have taken a huge step in achieving the ILO of effective communicators.

Take-a-ways:

1. Being specific with communication is essential to achieve the expected results.
2. Listening is just as important as speaking when communicating.

Recommended? Absolutely! This was a fun way to develop communication skills.

# Acorn Project 2 Overview: CFM Study Group

Overview : The group would meet to complete a Come Follow Me lesson for the week. Picking our favorite scriptures that week and discussing the eternal principles that the verses show.

Institution Learning Objective: Disciples of Jesus Christ

Values: Honesty, Discipleship, Communication, Responsibility, Reliability

Visions: To come closer to Jesus Christ through study of the scriptures.

Smart Goal:

S: Meet for one hour to discuss that week's CFM, then a group discussion will be held.

M: We will discuss for an hour the weeks CFM and pick out one verse to discuss with the group.

A: This activity will take an hour a week for 3 weeks which is an attainable commitment.

R: The group discussion gave us insight into more truths than we had just by ourselves.

T: We will complete this activity before week 13.

# Acorn Project 2 Milestones: CFM Study Group

## Milestones:

1. Meet as a group for a meeting
  1. Discuss CFM(Come Follow Me) by completing the lesson.
  2. Select favorite scripture as an individual
  3. Write down thoughts and ideas as an individual and as a group
2. Meet a second time on a later week and complete that weeks CFM
3. Meet a third time on a later week and complete that weeks CFM
4. Present favorite scripture and thoughts to class

# Acorn Project 2 Conclusion: CFM Study Group

Experiences: This was definitely a wholesome experience as we learned to be more like Jesus. It was nice to meet and read the upcoming Come Follow Me. It prepared us to discuss at our individual church meetings on Sunday.

Results: We completed the 3 meetings, we gained new favorite scriptures, we strived to be better disciples of Jesus Christ.

Take-a-ways:

1. More understanding of the scriptures.
2. Doing CFM consistently leads to a stronger testimony

Recommended? Yes, this is a wonderful bonding activity, especially with family.

# Acorn Project 3 Overview: Campus Buildings Tour

Overview: Our project is to expand our thinking by visiting different educational buildings including the Biology (Benson), Music and Art (Snow and Spori), and Religion (Taylor), Physics and Astronomy (Romney). We saw the wildlife museum and green houses in the Benson, art display in the Spori, chapel and art in Taylor, and planetarium in the Romney.

Institution Learning Objective: Sound Thinkers

Values: Communication, Responsibility, Reliability, Curiosity.

Visions: To better help each other learn and grow among the campus' many great experiences.

Smart Goal:

S: Get to know the team.

M: To better understand each other

A: We want to make it through the 4 Activities

R: It will help our knowledge grow as a group

T: We will complete this activity before week 13.

# Acorn Project Milestone: Discover 4+ campus building Activities

## Milestone

1. Meet as a group for a meeting
  - a. Discuss CFM(Come Follow Me) by completing the lesson.
  - b. Select favorite scripture as an individual
  - c. Write down thoughts and ideas as an individual and as a group
2. Meet a second time on a later week and complete that weeks CFM
3. Meet a third time on a later week and complete that weeks CFM
4. Present favorite scripture and thoughts to class

# Acorn Project 3 Experiences, Results, and Take-a-ways

Experiences: As we went to each building, we talked about our experience at our previous one. We were able to discuss plants, animals, planets, art, religion, and music. We were able to engage and think about other majors.

Results: We went to the Snow, Romney, Benson, Taylor, and Spori buildings and visited the major activities there.

Take-a-ways:

1. Dedication of other students to their craft.
2. Admiring the history of our world.

Recommended? Yes, being able to explore the wonders of what previous students and staff have put together was wonderful.

# Acorn Project 4 Overview

Overview (description of what project was planned to be):

Institution Learning Objective: Skilled Collaborators

Values: Communication, Responsibility, Reliability, Time Management, Self-reliance

Visions: To eat pie and grow together as a team through cooking with each other.

Smart Goal:

S: How to best go about a project

M: To make a pie

A: Within 2 hours, then only one hour

R: Understand how each other works with others

T: We will complete this activity before week 13.

# Acorn Project Milestone: Pie Making

Milestone:

1. Meet up and find Recipe
  - a. Plan out ingredients, when/where to buy ingredients, where we will cook
2. Buy ingredients as a group
3. Try to make pie
4. Eat and write notes
5. Meet up next week and use what we learned to make a better pie
6. Eat and judge to see if it's better
7. Take pictures with pie

# Acorn Project 4 Experiences, Results, and Take-a-ways

Experiences: OH MY GOODNESS, TALK ABOUT A MESS! There was flour and pie filling everywhere! There may have even been some on the ceiling... but the pie was delicious.

Results: We got to eat pie and help each other learn how to make pie.

Take-a-ways:

1. We learned how to collaborate as we added the ingredients in order.
2. Learning how to make and eat good pie

Recommended? Yes, If you want to learn how to make pie and have a fun time with friends and family.
